

THE DISCOVERY BIBLE STUDY METHOD

Discovery Bible study leads you through a series of questions as you read the Bible. These are questions that can lead a conversation personally between you and God and/or within a small group.

1. Read the entirety of the passage. If you are in a small group setting, simply invite the group to read the passage out loud together and then lead a discussion in retelling that passage and answering the above questions.
2. Reread the passage asking these questions:
 - What did I discover about God?
 - What did I discover about people?
 - What do I discover about myself? How do I feel about what I read?
 - What next step am I to take in my faith journey?
 - Who will I share these discoveries with?
3. Throughout the process, spend time waiting for the Holy Spirit to speak.
4. Close by praying for one another and for ONE in your life who is disconnected from God.
